

Temperature sensor

High temperature and fast reacting

- Connection head type DANAW.
- Termo couple type K (NiCr-Ni) $\varnothing 3\text{mm}$ wire with twisted end.
- 50mm protection tube $\varnothing 12\text{mm}$ in heat-resistant steel (Tp316L).
- Med transmitter T121 4-20mA = 0..+800°C.
- 35mm open end for fast reaction.
- Max. measuring temperature 800°C.

Part No. 945420212150-Tr
